DETAILED ACTION

Election/Restrictions

This application contains claims directed to the following patentably distinct species:

- I. Species I, Embodiment shown in Figure 1.
- II. Species II, Embodiment shown in Figure 2.
- III. Species III, Embodiment shown in Figure 3.
- IV. Species IV, Embodiment shown in Figure 4.

The inventions are distinct, each from the other because of the following reasons: Species I shows a pair underwear having a front, second, and third panel that do not cover the thigh of the wearer. Species II shows a similar embodiment to Species I, with the addition of a portion that covers the thighs of the wearer. Species III shows underwear having a front and second panel, but having a strap instead of a back panel. Species IV shows underwear with a front, second, and back panel having a lower leg portion and a foot portion.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 1, 2, 4, 5, 8, 10-14, 17, 18, 20, 22, 23, and 30 are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).
